DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Pat Yoder Reg. No. 37,479 on May 24, 2005.

Claims 35-37 are to be amended as follows:

35. (currently amended) A method for compressing an intensity dynamic range of an input image to a reduced intensity dynamic range of an image display device, said method comprising:

defining a plurality of units of the input image;

determining a local mean estimate of an intensity of each of the plurality of units of the input image using a morphological filter;

generating a first value by multiplying a contrast modification function by a mean modification function;

generating a second value by dividing the first value by the local mean estimate;

accessing a look-up table with reference to the second value and returning a contrast modification processing value; and

~~generating a contrast modification processing value for each local mean estimate; and~~

generating an output intensity value, for each local mean estimate, by using the generated contrast modification processing value and an input intensity value.

36. (currently amended) A method according to Claim 35 wherein generating an output intensity value comprises generating an output intensity value[,] for each local mean estimate[,] by using only the generated contrast modification processing value and an input intensity value.

37. (canceled)

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Applicant has amended independent claims 1, 13, and 24 to include the allowable subject matter indicated in the previous office actions of claims 3, 6, 12, 15, 18, 26 and 29. Applicant has further authorized Examiner to amend claim 35 as shown above to include said allowable subject matter and to cancel claim 37. All of the independent claims now include this allowable subject matter and are therefore allowed along with the remaining subsequent dependent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
